

Consent for insurance credit score

To help us underwrite and administer your insurance we need your consent for insurers to obtain an insurance credit score that they may require in preparing a quote

In considering claims for benefits under a policy related to this or another proposal you made for insurance, you give First International and the insurers they approach for quotes the right to:

- Obtain information from any credit bureau in respect of your credit score for the duration of your insurance with First International and the insurers they approach
- Provide information, based on your payment history with the insurers, to a credit bureau.
- Share claims-related information with other short-term insurers, contracted service providers and industry associations.

I, _____ have read and understood the above
